Subject: Notes from Friday's Meeting

Yo,

Here's what happened at Friday's meeting.

We picked out a style for the polo shirts.

Laura Buller said her leads on an MC for Saturday night's banquet of the convention didn't pan out. She came up with two more during the meeting. One of them was Dr. Schlup, a ChE prof. He was the first KS Gamma P-resident. I think he'd make a good MC. She's asking the other first.

Scholarship day is on the Saturday of the convention, Oct 10. However, the dean's office knew of the conflict and scheduled it there any. We won't be bothered by it as long as our luncheon is done (not necessarily cleanup) by 1:30 or 2.

Carrie Burghart is going to check on prices for a Konza tour on Thursday morning of the banquet. We need to update the budget and include prices of shirts, tours, buses, etc to determine how much money we'll have to work with.

Eric Dalton is going to check with the bus companies, chartered and school, and find out if they need a deposit, when our final bus count needs to be in, whether it's easier for them to add a bus for us or take away a bus after we get the final arriving times of the attendees.

Before the end of the semester, we need to have an MC chosen, the buses reserved (if necessary), tour preparations made, all necessary rooms reserved at a secondary hotel, and the K-State singers reserved if we go with them.

Heather, I need to get a copy of the final convention schedule and the luncheon menu to be sent along with Carrie's pictures to Roger. Would you bring them to the pig roast on Tuesday night?

Have a relaxing week, everyone.  
budke

Brian,  
Note that Engineering Student Services scheduled Scholarship Day. The "dean's office" did not. I am trying to find out why this conflict was scheduled. In any event, Scholarship Day should not impact your planning for the national convention. It appears as if your group is doing a super job in preparing for a first-class event. Keep up the good work!  
TSK
